2. Significant events in 3 quarter 2014

2.1. Conclusion of a significant agreement

On 22 July 2014, ING Bank Śląski S.A. concluded with London Clearing House (LCH. Clearent Ltd.) a Charge Securing Own Obligations Agreement regarding maintenance of the liquidity buffer by the Bank to the maximum amount of EUR 230 million and GBP 13 million, including depositing securities up to the maximum amount of EUR 180 million. The deposited securities and cash secure clearing of interest rate derivative transactions as part of the Clearing House's SwapClear service.

By concluding this agreement and depositing the required securities, ING Bank Śląski S.A. became a direct participant of the Clearing House and settles the interest rate derivative transactions in line with the Regulation of the European Parliament and of the Council (EU) on OTC derivatives, central counterparties (CCPs) and trade repositories (TRs) (EMIR). The criterion for regarding the agreement as significant is the total exposure value exceeding 10% of the Bank's equity.

2.2. Annex to the credit agreement

On 5 August 2014, there was concluded an annex to the credit agreement of 2 January 2012 with ING Commercial Finance Polska S.A. whereby the annual amount of the working capital loan granted to the company was increased by PLN 500.0 million to PLN 2,725.0 million. The total exposure of the Bank towards the ING Commercial Finance Polska S.A. company is PLN 2,725.5 million. The criterion for regarding the agreement as significant is the ratio of the total loan amounts to the Bank's equity. The borrower is a related entity of ING Bank Śląski S.A.

2.3. Conclusion of a significant agreement

On 8 August 2014, ING Bank Śląski S.A. signed together with a consortium of other banks an annex to the agreement of 10 June 2010, as amended, with the entity from the fuel and energy sector providing for, inter alia, a change of the term of that entity's bond issue programme until 31 July 2020 while keeping the hitherto maximum amount of PLN 7,000.00 million.

Pursuant to the annex, ING Bank Śląski S.A., has the right to assume the rights and obligations of one of the undewriting banks, and consequently take up bonds up to the amount of PLN 774.0 million but will no longer be the issue agent.

The criterion for regarding the agreement as significant is the total exposure of the Bank towards the entity being a party to the above referred annex and its subsidiaries under the agreements made during the last 12 months that considering the potential exposure reported herein exceeds 10% of the Bank's equity. The aggregate agreements referred to hereinabove total approximately PLN 896.0 million while the potential exposure of the Bank under the annex signed has the biggest value.

2.4. Annex to the credit agreement

On 19 September 2014, there was concluded an annex to the credit agreement of 19 January 2012, as amended, with ING Lease Polska Sp. z o.o. whereby the amount of the loan granted to the company was increased by PLN 820.0 million to PLN 3,500.00 million. The total exposure of the Bank towards ING Lease Polska Sp. z o.o. is PLN 3,501.92 million. The criterion for regarding the agreement as significant is the ratio of the total loan amounts to the Bank's equity. The borrower is a related entity of ING Bank Śląski S.A.

3. Significant events after the balance sheet date

3.1. Results of the Asset Quality Review, or AQR, and of the Stress Tests for ING Bank Śląski S.A.

On 26 October 2014 the results of asset quality review and stress tests for ING Bank Śląski S.A. were published. The review was conducted by the Polish Financial Supervision Authority for 15 Polish banks and was consistent in terms of methodology with the review of the most important Eurozone banks conducted by the European Banking Authority, or EBA.

Test results were publicly disclosed by the PFSA on 17 October 2014. The Bank also made a relevant current report pursuant to the Act on Public Offering and the Terms and Conditions of Introducing Financial Instruments into Organised Trading System and Public Companies.

4. Compliance with International Financial Reporting Standards

These interim condensed consolidated financial statements of the ING Bank Śląski S.A. Group for the 3 quarter 2014 were prepared under the IAS 34 *Interim Financial Reporting* (International Accounting Standards) in a version approved by the European Commission effective as at the reporting date, that is 30 September 2014 as well as in accordance with the Ordinance of Finance Minister of 19 February 2009 on current and interim

information submitted by issuers of securities (Journal of Laws of 2009, no. 33, item 259) with subsequent amendments.

Presented financial statements have been prepared in a condensed version. The interim condensed financial statements do not provide all data or disclosures required in the annual financial statements and should be interpreted together with the Bank's financial statements for the year ended 31 December 2013 approved by the General Meeting on 10 April 2014.

Interim condensed consolidated income statement, interim condensed consolidated statement of comprehensive income, interim condensed consolidated statement of changes in equity, and interim condensed consolidated cash flow statement for the period from 1 January 2014 to 30 September 2014, and interim condensed consolidated statement of financial position as at 30 September 2014 together with comparable data were prepared according to the same principles of accounting for each period.

4.1. Going-concern

These interim condensed consolidated financial statements were prepared on a going-concern basis as regards the foreseeable future, namely as regards the period of minimum 12 months from the balance sheet date. As of the date of approving these statements, the Bank Management Board has not identified any events that could indicate that the continuation of the operations by the Capital Group is endangered.

4.2. Discontinued operations

No operations were discontinued during the 3 quarters 2014 and 3 quarters 2013.

4.3. Financial statements scope and currency

These interim condensed consolidated financial statements of the Group for the 3 quarter 2014 comprise the Bank and its subsidiaries and the Group's interest in associates and jointly controlled entities. These interim condensed consolidated financial statements have been developed in Polish zloties ("PLN"). Unless provided for otherwise, all values were given rounded up to PLN million. Therefore, some totals and individual notes can be inconsistent in mathematical terms.

4.4. Comparable data

The comparative data cover the period from 1 January 2013 to 30 September 2013 for the interim condensed consolidated income statement; the interim condensed consolidated statement of comprehensive income and the interim condensed consolidated cash flow statement, additionally for the period from 1 January 2013 to 31 December 2013 for the interim condensed consolidated statement of changes in equity; and in the case of the interim condensed consolidated statement of financial position data as of 30 June 2014, 31 December 2013, 30 September 2013 and 30 June 2013.

Interim condensed consolidated income statements, interim condensed consolidated statement of comprehensive income and notes to the interim condensed consolidated income statements include data for the III quarter 2014 (period from 1 July 2014 to 30 September 2014) as well as comparative data for the III quarter 2013 (period from 1 July 2013 to 30 September 2013).

4.5. Changes to accounting standards

In these interim condensed consolidated financial statements, the same accounting standards have been applied as in the case of annual consolidated financial statements for the year 2013 (Annual consolidated financial statements of the ING Bank Śląski S.A. Group for the period from 1 January 2013 to 31 December 2013) and the following effective standards and interpretations adopted by the European Union:

Change	Scope	Influence on the Group statements
IAS 27 <i>Standalone Financial Statements</i>	The change introduces the necessity to recognize investments in subsidiaries, jointly controlled entities and associates at cost or in line with rules set forth in IFRS 9 Financial Instruments in separate financial statements. The name of the standard was also changed. The change published on 31 October 2012, specifying the guidelines for investment entities. Application date: the accounting year starting on 1 January 2014 or later.	Implementation of the change had no material impact on the financial statements of the Group .
IAS 28 <i>Investments in Associates and Joint Ventures</i>	The changes pertain to the accounting principles for investments in associates and determine the requirements that have to be met in order to apply accounting using the equity method for investments in associates and jointly controlled entities. Application date: the accounting year starting on 1 January 2014 or later.	Implementation of the change had no impact on the financial statements of the Group .
IAS 36 <i>Impairment of Assets Recoverable Amount Disclosures for Non-Financial Assets</i>	The amendment specifies the requirements for recoverable amount disclosures for non-financial assets. The scope of mandatory disclosures was limited to the recoverable amount of non-financial assets where for impairment is identified based on the fair value less costs of sale. Application date: the accounting year starting on 1 January 2014 or later.	Implementation of the change had no material impact on the financial statements of the Group .
IAS 39 <i>Financial Instruments: Recognition and Measurement</i> <i>Novation of Derivatives and Continuation of Hedge Accounting</i>	The objective of the amendment is to enable novation to a central counterparty (CCP) for the derivatives designated as hedging instruments under the existing hedging relationships. The amendment made allows for continuation of the hedge structure in such conditions. Application date: the accounting year starting on 1 January 2014 or later.	Implementation of the change had no material impact on the financial statements of the Group. The above follows both the adopted principles whereunder the individual strategies function and the legal obligation to transfer transactions to be cleared through the central counterparty.
IFRS 10 <i>Consolidated Financial Statements</i>	New standard presenting the guidelines for financial statements consolidation including in particular but not limited to the indications confirming the requirement to include entities in the consolidated financial statements. The change published on 28 June 2012 is to specify implementation requirements. The change published on 31 October 2012 specifying the guidelines for investment entities which due to the purpose of their business are excluded from the requirement to include subsidiaries in consolidation and are required to carry them at fair value through profit or loss. Application date: the accounting year starting on 1 January 2014 or later.	The new standard had no impact the consolidated financial statements of the Group because after assessing the supervision over the entities wherein funds were invested in line with the new standard the conclusions as regards the extent whereto the Group supervises the said entities remained unchanged while the Parent Company of the Group does not meet the requirements to be treated as an investment unit.

IFRS 11 <i>Joint Arrangements</i>	New standard sets out the requirements for joint arrangements recognition and measurement. The change published on 28 June 2012 is to specify implementation requirements. Application date: the accounting year starting on 1 January 2014 or later.	Standard implementation had no impact the financial statements of the Group because the Group is not a party to any mutual arrangements.
IFRS 12 <i>Disclosure of Interest in Other Entities</i>	New standard sets out the disclosures of interest in other entities. The change published on 28 June 2012 is to specify implementation requirements. The change published on 31 October 2012, specifying the guidelines for investment entities in consequence of parallel changes made to IFRS 10. Application date: the accounting year starting on 1 January 2014 or later.	Implementation of the change had no material impact on the financial statements of the Group (the number of required disclosures will go up).

The published standards and interpretations which were already issued but are still ineffective as they were not approved by the European Union or were approved by the European Union but were not previously applied by the Group:

Change	Scope	Influence on the Group statements
IAS 16 <i>Property, plant and equipment</i>	Amendment to IAS 16 (published together with the amendment to IAS 41) concerning recognition of bearer plants. Amendment to IAS 16 (published together with the amendment to IAS 38) concerning updated guidance on acceptable methods of depreciation and amortisation. Under the amendment, the use of revenue-based methods to calculate the depreciation of property, plant and equipment is not appropriate because revenue generated by an activity that includes the use of an asset generally reflects factors other than the consumption of the economic benefits embodied in the asset. Application date: the accounting year starting on 1 January 2016 or later.	The published amendments to the standard will not have impact on the financial statements of the Group – the Group does not apply the revenue-based methods of depreciation and amortisation while the amendment concerning recognition of bearer plants does not apply to the Group.
IAS 19 <i>Employee benefits</i>	The change concerns simplification of settling contributions which are independent from employee's seniority (e.g. contributions which are calculated as per a given remuneration part). Application date: accounting year starting on 1 July 2014 or later.	The standard implementation will not have a material impact on the financial statements of the Group.
IAS 27 <i>Separate Financial Statements</i>	The amendment made to the standard will allow application of the equity method to presentation of investments in subsidiaries, joint ventures and associates in the separate financial statements. Application date: the accounting year starting on 1 January 2016 or later.	The analyses show that the application of amendment to the standard will not have material impact on the financial statements of the Group.
IAS 28 <i>Investments in associates and joint ventures</i>	Amendment (published together with an amendment to IFRS 10) provides for the guidelines as to sale and contribution between an investor and a subsidiary or a joint venture. Application date: the accounting year starting on 1 January 2016 or later.	The Group is currently analysing the impact of the said changes on the financial statements, but still no material impact is expected.

<p>IAS 38 <i>Intangible assets</i></p>	<p>Amendment to IAS 38 (published together with the amendment to IAS 16) The amendments clarify that the revenue is generally presumed to be an inappropriate basis for measuring the consumption of the economic benefits embodied in an intangible asset. This presumption, however, can be rebutted in certain limited circumstances. Application date: the accounting year starting on 1 January 2016 or later.</p>	<p>Standard application will have no impact on the financial statements of the Group.</p>
<p>IAS 41 <i>Agriculture</i></p>	<p>Amendment to IAS 41 (published together with the amendment to IAS 16) concerning recognition of bearer plants. Application date: the accounting year starting on 1 January 2016 or later.</p>	<p>Not applicable.</p>
<p>IFRS 9 <i>Financial Instruments</i></p>	<p>This standard is the outcome of IASB project works to replace IAS 39. The new standard is assumed to regulate in a comprehensive manner the matters pertaining to financial instruments. On 24 July 2014, there was published the full version of the standard covering all the thematic blocks separated during project works: 1) classification and valuation, 2) impairment of financial assets, and 3) hedge accounting. It should be noted that the new standard excludes the guidelines on portfolio-based hedge accounting. IASB continues to work on these aspects as part of a separate project: <i>Accounting for Dynamic Risk Management: a Portfolio Revaluation Approach to Macro Hedging</i>. Application date: the accounting year starting on 1 January 2018 or later.</p>	<p>The new Standard is expected to have a material impact on the financial statements upon its initial application due to the requirement of its retrospective application. The Group is currently analysing the impact of changes on the consolidated financial statements. The Group has not set the initial application date for this Standard yet.</p>

In view of the ongoing process of IFRS introduction in the EU and the business run by the Company, as at the approval date of this report, there were no differences between the already effective IFRSs and the IFRSs approved by the EU in terms of the accounting principles applied by the Company.

5. Material accounting principles

Detailed accounting principles are presented in annual consolidated financial statements of the ING Bank Śląski S.A. Group for the period from 1 January 2013 to 31 December 2013 published on 7 March 2014 that is available on the Internet site of ING Bank Śląski S.A. (www.ingbank.pl).

Below presented are modifications introduced to the description of accounting principles applied by the Capital Group. The changes implemented in 3 quarter 2014 were editorial in nature and were aimed at enhancing the quality of the description of the accounting principles applied by the Group and making it more transparent.

5.1. Amendments made to the description of the associates

Associates are all entities over which the Group has significant influence but not control, generally accompanying a share of between 20% and 50% of the voting rights. The consolidated financial statements include the Group's share in profits or losses of associates according to its share in net assets of associates, from the date of obtaining significant influence until the date, the significant influence ceases.

Investments in associates are initially accounted at purchase price and then accounted for using the equity method. The Group's investment in associates includes goodwill (net of any accumulated impairment loss) identified on acquisition. The share of the Group in the profits (losses) of associates since the date of acquisition is recognised in the income statement, whereas its share in changes in other reserves since the date of acquisition – in other reserves. The carrying amount of the investment is adjusted by the total changes of different items of equity after the date of their acquisition.

When the share of the Group in the losses of an associate becomes equal or greater than the share of the Group in that associate, the Group discontinues the recognition of any further losses or creates provision only to such amount, it has assumed obligations or has settled payments on behalf of the respective associate.

Investments in associates meeting the criteria of classification as assets held for sale are recognised as per the rules described in item *Non-current assets held for sale and discontinued operations* (item 9.3 of the Annual consolidated financial statements of the ING Bank Śląski S.A. Capital Group for the period from 1 January 2013 to 31 December 2013).

5.2. Amendments made to the description of the repo/reverse repo transactions

The Group presents sold financial assets with the repurchase clauses (repo, sell–buy–back transactions) in its statement of financial position, simultaneously recognising a financial liability under a repurchase clause. This is done in order to reflect the risks and benefits arising on this assets item that are retained by the Group after the transfer.

For the securities purchased with a repurchase clause (reverse repo, buy–sell–back), the financial assets held are presented as receivables arising from repurchase clause, hedged with securities.

Transactions are measured in line with their intention. Accordingly, the transactions made for the category of financial instruments held for trading are carried at fair value through profit or loss. Other transactions are recognised at amortized cost using the effective interest method.

5.3. Amendments made to the description of the net commission income

Commission income arises from providing financial services by the Group and comprises fees for extending a loan, the Group's pledge to extend a loan, cards issue, cash management services, brokerage services, insurance products-related services and asset management services. Commission income comprises also margins on FX derivatives transactions concluded with corporate clients.

Fees and commissions (both income and expenses) directly attributed to rise of financial assets with repayment schedule are recognised in the income statement as effective interest rate component and are part of the interest income.

Other fees and commissions attributed to rise of financial assets without the repayment schedule (e.g. commission on overdrafts) are settled using a straight-line method throughout the agreement term. Fees on pledge to extend a loan, which is likely to be taken, are deferred and as at the date of financial assets rise are settled as the component of effective interest rate or using straight-line method based on above mentioned criterion.

Other fees and commissions relating to the financial services offered by the Group – like cash management services, brokerage services and asset management services – are recognised in the income statement at the time of service provision.

Commission income that was accrued and is due but was not paid on time are derecognised from the Bank's financial result upon the lapse of 90 days.

6. Comparability of financial data

Amendments to the Income Statement

In the interim condensed consolidated financial statements for the period from 1 January 2014 to 30 September 2014, the Group made the following amendments with respect to the disclosure of certain items of the income statement as compared to the interim consolidated financial statements for the previous periods:

- 1) The *General and administrative expenses* item and the *Result on other operating income and expenses* were aggregated as one item under the heading *General and administrative expenses*; in consequence, the item increased by PLN 1.9 million (+PLN 0.4 million in Q3 2013).
- 2) The manner of presenting the costs due to the fee for the benefit of BGF was changed. At present, the said costs are presented in the *General and administrative expenses* item whereas they used to be recognised in the *Commission expenses* item in the previous periods. As a result of that change, the *General and administrative expenses* item increased, and the *Commission expenses* item decreased by PLN 34.0 million (+PLN 11.3 million in Q3 2013).
- 3) The Group analysed the commission income and commission expenses, and identified certain titles concerning payment cards and credit cards in the case of which the Group was of the view that it would be more appropriate to deduct them from the commission income rather than recognise them as part of commission expenses. As a result of that change, both the commission income and the commission expenses decreased by PLN 0.8 million (PLN 0.3 million in Q3 2013).

The changes described above required a restatement of the comparable data; they did not, however, impact on the level of the financial result as presented in the financial statements.

The table below highlights the individual items of the consolidated income statement as they were presented in the interim condensed consolidated financial statements for Q3 2013 and in the current statements.

Amendments to the Statement of Financial Position

In the interim condensed consolidated financial statements for the period from 1 January 2014 to 30 September 2014, the Group made one disclosure-related amendment to the statement of financial position, compared to the interim consolidated financial statements for previous periods. The modification involved separating the item *Assets held for sale* from the *Assets*. Previously, assets held for sale were an item of *Non-financial assets* due to the fact that they related to assets moved from *Property, plant and equipment*. In Q2 2014, the Group reclassified the shares in an affiliated entity to the assets held for sale, and a continued presentation of the assets held for sale as part of *Non-financial assets* might mislead the recipients of the statement as to the nature of that category.

The Group is of the opinion that by dint of the amendment the statement of financial position became more transparent. The amendment did not impact on the balance sheet totals of the reporting periods.

The below tables show individual items of the consolidated statement of financial position as per amounts disclosed in the interim consolidated financial statements for previous periods (Table 1) and in the current financial statements (Table 2).

7.21. Fair values

7.21.1. Fair value of financial assets and liabilities

Categories of fair value measurement of financial assets and liabilities

Based on the employed methods of determining the fair value, financial assets/liabilities are classified to the following categories:

- Level I: financial assets/liabilities measured directly on the basis of prices quoted in the active market or measurement techniques based solely on market data.
- Level II: financial assets/liabilities measured on the basis of measurement techniques based on assumptions using data from an active market or market observations.
- Level III: financial assets/liabilities measured on the basis of measurement techniques commonly used by the market players, the assumptions of which are not based on data from an active market.

The table below presents the balance-sheet figures for financial assets and liabilities per individual measurement levels.

Movements between valuation levels

In 2014 there were no movements between valuation levels.

Valuation of financial instruments classified to the 2nd level

The Group classifies derivatives, cash bills of the National Bank of Poland and repo transactions into the 2nd level of valuation.

Derivatives

The following models are applied for non-linear transactions (FX options), depending on the product type:

- the European vanilla option – the Garman-Kohlhagen model,
- the European digital option - the Garman-Kohlhagen model adjusted by the call spread,
- the touch option – the Murex Skew Model,
- the (American) barrier option – the Murex Skew Model,
- the (European) barrier option – the Garman-Kohlhagen model
- Cap/Floor (back-to-back transactions) – the Black model.

The following are the input data for the models:

- the foreign exchange rate – obtained by the parties from the National Bank of Poland website,
- implied volatilities – obtained from Bloomberg BGN or Bloomberg Synthetic for the currency pair with lower liquidity

- profitability curves similar to those for linear derivatives.

Fair value for linear instruments (other derivatives) is determined based on discounted future cash flows at the transaction levels. The fair value determined in that manner is the PV of those cash flows.

All input data used for the creation of the revaluation curves are observed on the market, and include: deposit market rates, forward points, FRA rates, IRS rates, OIS rates, FX basis points, basis points among the index for variable rate, and FX-rates. The data come from the Reuters system and come mainly from brokers. The quality of those data as well as the data from other sources used in the revaluation process is verified on an annual basis or adjusted ad hoc.

All derivatives except for interest rate derivatives in PLN are valued according to the OIS curve concept on the assumption that there is a hedge of the transaction valuation in the form of a deposit at EONIA rate.

Due to the specific nature of the Polish market, single-currency derivatives in PLN are valued according to one curve for identification of future interest flows and for discount purposes. Similar to linear derivatives in other currencies, the curves taken account of the type of the underlying index.

Cash bills of the National Bank of Poland

Flat profitability curve set at the level of the NBP reference rate is applied for the valuation of NBP cash bills.

T-bills

Profitability curve for T-bills is obtained based on the observation of broker websites.

Repo transactions

Fair value for repo transactions is determined based on future payment flows discounted according to the profitability curve for the so called cash instruments.

Valuation of financial instruments classified to the 3rd level

Shares and participations of several companies for which It is difficult or impossible to determine the fair value due to absence of active market for those instruments are classified into the 3rd valuation level. The Group is of the opinion that the purchase price less the impairment charge (if any) is the best indicator of their value.

As of 01 January 2014, new provisions of the Regulation (EU) No. 575/2013 of the European Parliament and of the Council of 26 June 2013 (CRR for short) are applicable to own funds and capital adequacy. The total capital ratio (solvency ratio previously) as at 30 September 2014 and 30 June 2014 was calculated under the CRR guidelines.

The ratios presented for the previous periods were calculated under the laws effective by the 2013 year end and provided for in PFSA Resolution No. 76/2010 on the Scope and Detailed Principles of Capital Requirement Determination for Individual Risk Types of 10 March 2010.

8. Factors potentially affecting the financial results in the following quarters

The macroeconomic factors that may impact the results in subsequent quarters include:

- temporary halt of the economic growth rate in Poland at about 3% (y/y) – according to the Central Statistical Office, the GDP growth in Q2 2014 settled at 3.3% (y/y) versus 3.4% (y/y) in Q1 2014. According to the forecasts developed at ING Bank Śląski S.A., in the coming quarters GDP can grow respectively by 3.0% (y/y) in Q3 2014 and 2.8% in Q4 2014. GDP of 3.1% seems attainable over the year 2014 and the economic growth rate may reach 3.2% in 2015. The forecast halt of the growth rate will result from an uncertain economic situation in the Eurozone and its difficulties in developing institutional solutions ensuring stronger domestic demand as well as disturbances in exporting goods to Russia and Ukraine,
- private consumption growth is likely to settle at 2.7% (y/y) in the coming quarters and plans to intensively absorb EU funds in 2015 (infrastructure investment projects and investment projects of local government units). Such actions are possible on account of changes to the pension system cutting down the current budget spending. Elevated investment activity of local government units is possible in Q4 2014 in connection with local government elections to take place in November,
- changes on the labour market – as at the end of Q2 2014, the unemployment rate was 12.0% and it was 1.2 p.p. lower than last year. Upon excluding the seasonal factors, the unemployment rate has been going down since mid-2013, but the corporate survey-dependent indicators suggest that the labour demand seems less encouraging than at the beginning of 2014. At the same time, household real income is growing relatively fast because of negative inflation levels, unprecedented so far in Poland. However, deterioration of market conditions as well as the Russia-Ukraine conflict can shore up the prudent approach of households to higher spending,
- level of main interest rates in Poland – deflation, which has been observed for a few months, may persist until the end of the year and its readings will remain at a very low level in H1 2015. At the same time, the condition of the domestic demand does not seem to provoke pressure on the rate of the consumer prices growth. Such a situation creates favourable conditions for interest rate cuts, as announced by the Monetary Policy Council in September 2014 (referential rate is 2.00% after its reduction by 50 bps in October). According to the forecasts of ING economists, further cuts of 50 bps are possible in the upcoming months. The Monetary Policy Council made a significant change in October by cutting the lombard rate by 100 bps; the rate sets the legally permissible maximum level of lending interest rates for private individuals.

10. Issues, redemption or repayments of debt securities and equities

None.

11. Dividends paid

On 10 April 2014, the General Meeting passed a resolution regarding dividend payout for 2013, pursuant to which the Bank paid out the dividend for 2013 totalling PLN 572,440.0 thousand, (PLN 4.4 gross per share). On 14 May 2014 the shareholders of record became entitled to the dividend payout which took place on 3 June 2014.

On 19 April 2013, the General Meeting approved earmarking the entire 2012 net profit of the Group's dominant entity for equity.

12. Settlements due to disputable cases

ING Bank Śląski maintains detailed records of court cases and other liabilities being legal claims. The Bank establishes reserves for the cases, which in the opinion of the legal staff and/or management staff are encumbered with a high risk of losing the case or it is impossible to recover the lost assets. Possible future settlements are made against the reserves established.

13. Seasonality or cyclicity of activity

Activity of ING Bank Śląski Group is not subject to seasonality or cyclicity within the meaning of §21 of IAS 34.

14. Transactions with related entities

ING Bank Śląski subsidiaries and affiliated entities (their list has been presented in Chapter II. *Supplementary information* in item 1.4. *ING Bank Śląski S.A. Capital Group*) as part of their business hold current accounts at ING Bank Śląski, via which they perform standard clearing operations and also invest cash funds using term deposits. Similarly, ING Bank Śląski maintains bank accounts of other members of ING Group. The transactions with the above entities are performed on an arm's length basis.

ING Bank Śląski performs operations with ING Bank NV and its subsidiaries on the inter-bank market. These are both short-term deposits and loans, as well as operations

in derivatives. Moreover, ING Lease Sp. z o.o. received long-term funding for leasing contracts in EUR (“matched funding”). The abovementioned transactions are carried out on an arm's length basis. There were also other transactions between the related entities and ING Bank Śląski. They originated from agreements concluded as to co-operation, sublease of premises, lease of equipment, data processing as well as management and employees' insurance contributions.

In the period from 1 January 2014 to 30 September 2014 the following transactions were made of the total value exceeding EURO 500.000:

- transactions with ING Bank NV – under execution of the agreements (among other Cooperation Agreement and Agreement on Provision of Data Processing and Financial Information Analysis Services), the fee for services rendered under financial advisory, the fee for using data processing and financial information analysis services by ING Bank Śląski and the fee for services rendered under business operations and product development advisory in the PCM area for 9 months of 2014 amounted to PLN 37.1 million versus PLN 46.0 million in the same period last year (net amounts).
- transactions with ING Services Polska – the Company provides ING Bank Śląski with IT equipment rental and operation services. Services' costs amounted to PLN 27,6 million versus PLN 34.6 million in the analogous period of the previous year (gross amounts).

15. Segmentation of revenue and financial results of the Group

15.1. Segments of operation

The management of ING Bank Śląski is conducted within the areas defined in the Bank's business model.

The Bank's business model, above all for the purpose of management reporting, includes division of clients into two main segments:

- retail banking segment,
- corporate banking segment.

The segments are separated based on the financial (especially turnover, level of collected assets) and subject-related criteria. The specific rules of putting clients to respective segments are governed by the clients segmentation criteria specified in the Bank's internal regulations.

15.1.1. Retail banking segment

Within the framework of retail banking, the Bank provides services for individual customers (segments of mass customers and wealthy customers) and for sole traders.

This activity is analysed by the leading products, including i.e.: credit products (overdraft on the savings and settlement account - ROR, loans related to cards, hire purchase loans, housing loans, mortgage loans, contract loans granted by the Building Society), deposit

products (current accounts, term deposits, savings accounts), structured product, ING fund units, brokerage services provided by ING Securities SA and bank cards.

15.1.2. Corporate banking segment

Corporate banking area encompasses as follows:

- providing services to institutional clients,
- Financial Markets products,
- Bank Treasury operations.

Services to institutional clients encompasses strategic clients, large corporate entities and mid-sized companies. For corporate activity, the Bank provides reporting broken down by leading products covering i.e. loan products (working loans, investment loans), deposit products (current accounts, term deposits and negotiated deposits, savings accounts), financial markets products, trust services, capital market operations conducted by the parent and by ING Securities, products related to leasing and factoring services offered by ING Lease (Polska) Sp. z o.o. and ING Commercial Finance Polska S.A.

Financial Markets products encompass operations performed in money and capital markets, conducted both on the proprietary basis as well as for the customers' benefit. Within the framework of this activity, currency, money and derivative instrument market products and securities operations (treasury securities, shares and notes) are specified.

The main scope of responsibilities of the Bank Treasury is management of both short-term and long-term liquidity risk, in line with the effective regulations and with risk appetite internally set at the Bank, interest rate risk management and investing surpluses obtained from business lines while maintaining the liquidity buffer in the form of liquid assets.

15.1.3. Measurement

The measurement of the segment's assets and liabilities, segment's revenue and costs is based on the accounting standards applied by the Bank, included in notes describing applied accounting standards. In particular, both internal and external interest income and costs for individual segments are determined with the use of the transfer price system within the Risk Transfer System (RTS).

Transfer prices are defined based on the yield curve for a given currency that is common for assets and liabilities. The transfer price that is determined for the products being assets and liabilities with the same position on the yield curve is identical. The original transfer price – coming from the product measurement regarding the yield curve can be modified and the factors adjusting the transfer price can be the following: a premium for obtainment of long-term liquidity, matching of the Bank's position, a hedging cost for sophisticated products and the pricing policy. Thereafter, based on quotation rates available at news services, yield curves are developed using mathematical equations.

Revenue, costs, results, assets and liabilities for a given segment account for elements that are directly attributable to the segment in question, as well as element that may be attributed to that segment based on reasonable premises.

The Bank presents segment's interest income reduced by the cost of the interest. This results from the fact that while evaluating the segment's results and assigning assets to the segment, the Management Board relies mainly on net interest income. In 3 quarters 2014, the Bank updated the allocation key for ALCO income and introduced changes referred to in item 6. *Comparability of financial data*. Data for the 9 months of 2013 presented

herein were made comparable.

16. Other informations

16.1. Ratings

Fitch Ratings Ltd.

The Fitch Ratings Ltd. Agency assigns full rating to ING Bank Śląski S.A. under the agreement between the bank and the Agency. At the beginning of 2014, Fitch Agency carried out another annual rating review at the Bank. As a result of this review, all the ratings were affirmed (Fitch Agency's press release of 24 January 2014 and full report on the Bank's rating of 5 February 2014).

As at 30.09.2014, the Bank had the rating of financial credibility, issued by the agency:

Rating	Level
Long-term IDR	A
Sustained score outlook	Negative
Short-term IDR	F1
Viability rating	bbb+
Support rating	1

Long-term IDR and Short-term IDR determine the entity's ability to meet financial commitments on a timely basis. Long-term IDR at A level reflects high ability of the Bank to timely settle long-term financial obligations. Short-term IDR at the F1 level means the highest rating for the ability to meet short-term commitments (up to 13 months) on a timely basis. In case of both ratings the Fitch agency considered the high probability of obtaining potential support from the dominant shareholder. ING Bank NV (ING Bank Śląski was assigned the highest support rating – 1). Viability rating of bbb+ means that according to the Agency, the intrinsic creditworthiness of the Bank; i.e., without any support (understood as the capacity to pay one's liabilities on time) is high. The Agency is of the opinion that the Bank has strong capital and liquidity position.

Moody's Investors Service Ltd.

The Moody's Investors Service Ltd. Agency assigns rating to ING Bank Śląski S.A. on the basis of the universally available public information. As at 30.09.2014, the Bank had the rating of financial credibility, issued by the agency:

Rating	Level
Long-term deposits (LT rating)	Baa1
Short-term deposits (ST rating)	P-2
Financial strength (BFSR)/ individual rating (BCA)	D+ / baa3
Long-term deposit rating outlook	Negative
Financial strength outlook	Stable

The above ratings were affirmed by the Agency at the end of April this year (Credit Opinion of 29 April 2014).

Katowice, 4 Nov 2014

Interim condensed standalone cash flow statement shall be analysed together with the supplementary notes to interim condensed consolidated financial statements being the integral part of interim condensed consolidated financial statements.

1. Introduction

1.1. *Going-concern*

These interim condensed standalone financial statements were prepared on a going-concern basis as regards the foreseeable future, namely as regards the period of minimum 12 months from the balance sheet date. As of the date of approving this statement, the Bank Management Board has not identified any events that could indicate that the continuation of the operations by the Bank is endangered.

1.2. *Discontinued operations*

No operations were discontinued during 3 quarters 2014 and 3 quarters 2013.

1.3. *Compliance with International Financial Reporting Standards*

These interim condensed standalone financial statements of the ING Bank Śląski S.A. for the 3 quarter 2014 were prepared under the IAS 34 *Interim Financial Reporting* (International Accounting Standards) in a version approved by the European Commission effective as at the reporting date, that is 30 September 2014 as well as in accordance with the Ordinance of Finance Minister of 19 February 2009 on current and interim information submitted by issuers of securities (Journal of Laws of 2009, no. 33, item 259) with subsequent amendments.

Presented financial statements have been prepared in a condensed version. The interim condensed financial statements do not provide all data or disclosures required in the annual financial statements and should be interpreted together with the interim condensed consolidated financial statements for the 3 quarter 2014 and the Bank's financial statements for the year ended 31 December 2013 approved by the General Meeting on 10 April 2014.

Interim condensed standalone income statement, interim condensed standalone statement of comprehensive income, interim condensed standalone statement of changes in equity, and interim condensed standalone cash flow statement for the period from 1 January 2014 to 30 September 2014, and interim condensed standalone statement of financial position as at 30 September 2014 together with comparable data were prepared according to the same principles of accounting for each period.

1.4. *Comparative data and verification by the chartered auditor*

The comparative data cover the period from 1 January 2013 to 30 September 2013 for the interim condensed standalone income statement; the interim condensed standalone statement of comprehensive income, the interim condensed standalone cash flow statement, additionally for the period from 1 January 2013 to 31 December 2013 for the interim condensed standalone statement of changes in equity; and in the case of the interim condensed standalone statement of financial position data as of 30 June 2014, 31 December 2013, 30 September 2013 and 30 June 2013.

Interim condensed standalone income statements and interim condensed standalone statement of comprehensive income include data for the Q3 2014 (period from 1 July 2014 to 30 September 2014) as well as comparative data for the Q3 2013 (period from 1 July 2013 to 30 September 2013).

1.5. Financial statements scope and currency

From the Bank's point of view all significant disclosures are presented in interim condensed consolidated financial statements.

These interim condensed financial statements have been developed in Polish zloties ("PLN"). Unless provided for otherwise, all values were given rounded up to PLN million. Therefore, some totals and individual notes can be inconsistent in mathematical terms.

1.6. Changes to accounting standards

In these interim condensed standalone financial statements the same principles of accounting have been applied as the ones applied for developing the 2013 annual standalone financial statements. Amendments to standards and new interpretations are described in interim condensed consolidated statements of the ING Bank Śląski S.A. Capital Group for the 3 quarter 2014 enclosed herewith ("interim condensed consolidated financial statements"), in chapter II. *Additional information* in item 4.5. *Changes to accounting standards*.

1.7. Approval of financial statements

These interim condensed standalone financial statements have been approved by the Bank Management Board on 4 November 2014.

2. Material accounting principles

Detailed accounting principles are presented in annual financial statements of ING Bank Śląski S.A. for the period from 1 January 2013 to 31 December 2013 published on 7 March 2014 that is available on the Internet site of ING Bank Śląski S.A. (www.ingbank.pl).

The same accounting principles were applied to interim condensed standalone financial statements and interim condensed consolidated financial statements, except for the changes in recording capital investments described above.

2.1. Investment in subsidiaries and associates

2.1.1. Subsidiaries

Subsidiaries are entities that are controlled directly or indirectly by the bank. Control is the power to govern the financial and operating policies of an entity so as to obtain economic benefits from its activities.

All of the following conditions have to be fulfilled simultaneously in order to confirm control over a specified unit:

- holding an existing right (power) to manage the relevant activities of the unit on an ongoing basis (activities that significantly affect return from a specific involvement with a given unit),
- exposure to variable returns or holding rights to variable returns,
- having the ability to use the existing rights (power) to affect its returns from a given involvement.

The conditions indicated hereinabove are not deemed fulfilled if the existing rights are of the protective nature only, i.e. are defined as rights securing Bank's interests related to a given involvement.

2.1.2. Joint arrangements

Joint arrangements are arrangements whereunder the control over the object thereof is divided between individual parties to the arrangement and the decisions concerning the relevant activities require a unanimous consent of the parties to that arrangement.

Such arrangements can be performed in the following forms:

- joint operation – in a situation when the parties to the arrangement have rights to the items of assets and obligations due to liabilities under the arrangements, or
- joint venture – in a situation when the parties to the arrangement have rights to the net assets of the arrangement object.

Control assessment takes account of all the conditions, facts and circumstances (including in particular those provided for in item *Subsidiaries*), provided that the analyses prove that none of the parties exercise control on their own.

2.1.3. Associates

Associated entities are entities over which the Bank has significant influence and are not subsidiaries. The Bank usually determines significant influence by possession of 20% to 50% of the total number of votes in governing bodies.

2.1.4. Recognition and valuation

The Bank recognises in its financial statements investments in its subsidiaries, associates and joint ventures under joint control as at the purchase price. The carrying amount of the investment is subject to tests for impairment under IAS 36. Any identified impairment is recognised in the income statement under the item *Impairment losses for financial assets and provisions for off-balance-sheet liabilities*. Dividends being investment income are recognised in the income statement as at the date when the Bank is vested with the right to receive them.

Items of assets and liabilities as well as revenues and expenses related to the joint operation are recognised at the value corresponding to the Bank's interest in the joint operation (in line with the proportionate consolidation principles). The adopted recognition method is applied both under joint control and a lack thereof provided that the Bank still holds rights to the items of assets and obligations under an arrangement.

3. Accounting estimates

The most significant accounting estimates made by the Bank are described in the in annual financial statements of ING Bank Śląski S.A. for the period from 1 January 2013 to 31 December 2013 published on 7 March 2014 that is available on the Internet site of ING Bank Śląski S.A. (www.ingbank.pl). In 3 quarter 2014, the Bank did not change its estimate development approach.

4. Comparability of financial data

In the interim condensed standalone financial statements for Q3 2014, the Bank made disclosure-related amendments regarding some items in the income statement and in the statement of financial position, compared to the interim condensed standalone financial statements for Q3 2013, the fact which was described in Chapter II. of the interim condensed

consolidated financial statements. *Supplementary information* in item 6. *Comparability of financial data*.

5. Significant events in 3 quarter 2014

Significant events that occurred in 3 quarter 2014 are described in the interim condensed consolidated financial statement in Chapter II. *Additional information* in item 2. *Significant events in 3 quarter 2014*.

6. Seasonality or cyclicity of activity

Activity of ING Bank Śląski Group is not subject to seasonality or cyclicity within the meaning of §21 of IAS 34.

7. Issues, redemption or repayments of debt securities and equities

None.

8. Dividends paid

On 10 April 2014, the General Meeting passed a resolution regarding dividend payout for 2013, pursuant to which the Bank paid out the dividend for 2013 totalling PLN 572,440.0 thousand, (PLN 4.4 gross per share). On 14 May 2014 the shareholders of record became entitled to the dividend payout which took place on 3 June 2014.

On 19 April 2013, the General Meeting resolved not to pass a resolution on dividend payout for 2012 and approved earmarking the entire 2011 net profit of the Bank for equity.

9. Acquisitions

In 3 quarter 2014, the ING Bank Śląski did not make any acquisitions, as in 3 quarter 2013.
