Types of payment accounts in the internet banking system

Clients who have access to one of the following payment accounts may use the internet banking system:

- Savings and settlement account in Polish zlotys (PLN) or in another currency,
- Primary payment account,
- Savings account in Polish zlotys (PLN) or another currency.

Definitions of the accounts are provided in the General Terms and Conditions of Providing Services by ING Bank Śląski S.A. as part of Maintaining Payment Accounts for Natural Persons. You do not need to have a payment account if access to the internet banking system arises from a separate framework agreement.

Definition of terms

- **Bank, we** – ING Bank Śląski S.A.
- **Moje ING, System** – our internet banking system, which you can use on a computer, smartphone, or tablet
- **Moje ING mobile, Moje ING application** – the mobile version of Moje ING designed for mobile devices
- **SBI Terms and Conditions** – Terms and Conditions on the provision of services through the internet banking system of ING Bank Śląski S.A.
- **User** – a person who uses the System in accordance with the SBI Terms and Conditions

Definitions of terms are provided in the SBI Terms and Conditions.

If a message refers to a bank outlet, the details on where a given matter can be handled can be found:

- in [the List of](#) activities performed at outlets and via the helpline,
- on notice boards in outlets,
- and on our website.

Technical requirements

For the System to function properly, your device must meet the following technical requirements.

Moje ING internet banking system

Operating system	Minimum version
Apple OS X	10.15+
Windows	10+
Web browser	Minimum version
Mozilla Firefox	140+
Google Chrome	140+
Safari	16+
Microsoft Edge	140+

Moje ING mobile application

Operating system	Minimum version
iOS	16.0+
Android	10.0+

The mobile application is available in Google Play and the App Store.

The internet banking system functions correctly only on stable operating systems.

We do not recommend using it on test versions of operating systems (such as alpha or beta releases).

File formats supported in the electronic safe

doc, docx, xls, xlsx, pdf, txt, csv, bmp, gif, png, jpg, jpeg, tiff, tif, ppt, pptx, odt, ods, odp

Security key standard

Security keys must comply with the FIDO2 standard as approved by the FIDO Alliance and the World Wide Web Consortium (W3C). The keys can be connected to a computer or mobile device using one of the USB-A, USB-C, Lightning ports or using a Bluetooth or NFC connection.

In special cases, for security reasons, we may prevent the use of a specific type of key.

* Functionality available to a child aged 6 to 13 can turn on and off independently.

** Unblocking of the child's internet banking system is performed by the parent, to whom we send the authorisation code to the telephone number they provided for authorisation.

Internet banking functionality that is unavailable to the user without in-person identity verification

- setting up a trusted profile
- filing an application as part of the Family 800+ programme
- filing an application for a benefit under the Good Start programme
- filing an application for the registration of a sole proprietorship in the CEIDG
- opening a sole proprietor account
- signing a cash loan agreement (not applicable to users who entered into the online banking agreement after 20 May 2013 and users who entered into the Framework Agreement)
- investment profile check
- entering into an agreement on provision of the services of accepting and transmitting the orders to buy or buy back titles in collective investment schemes (so-called intermediation agreement)
- acquisition/conversions/redemption of participation units in investment funds (also as part of ING Individual

Pension Account, or ING IKE)

- opening a fund-linked term deposit, IKE ING
- access to mojID – an online identity verification service

BLIK mobile platform

Transactions available in BLIK:

- BLIK transaction
- BLIK transaction from the beneficiary
- BLIK contactless transaction
- Transfer to a phone

Instructions processed based on the mobile device identification

A BLIK code is displayed in the mobile application when the client wants to make a payment transaction. There is no need to log in to the mobile application to see it. The option is available for one user only on a device added to the list of trusted mobile devices.

To be completed, a BLIK transaction at a payment terminal must be confirmed by the use of a mobile device. BLIK cashless transactions at payment terminals with a value of PLN 50 or more must be authorised with a mobile application PIN code. Transactions below PLN 50 can be authorised by tapping the “Confirm” button. You may be asked, however, to enter your mobile application PIN code or confirm with a biometric ID.

Every contactless BLIK cashless transaction must be confirmed at a payment terminal To do so, unlock your mobile device using your PIN code, fingerprint, or facial recognition.

Available daily limits as part of BLIK service

All transactions with BLIK code (online-, cash- and POS transactions):

0 PLN, 200 PLN, 500 PLN, 1 000 PLN, 2 000 PLN, 3 000 PLN, 4 000 PLN, 5 000 PLN, 10 000 PLN with the following:

Internet banking system certification

IdenTrust company is the issuer of the certificate for the internet banking System.

Chat in the internet banking system

The chat is open from Monday to Friday, from 8.00 am to 10.00 pm, and on Saturday, from 8.00 am to 4.00 pm.

Rules on the use of the Archive

1. With the Archive, the user has access, upon closure of the internet banking System, to the documents saved in the electronic system for mail delivery.
2. To log in to the Archive, you must first provide us with your login details (email address and phone number for authorisation). You can provide these details when closing access to the internet banking system. After access to the System has been closed, you can provide these details only at a bank outlet.
3. The user logs in to the Archive at the website login.ingbank.pl/archiwum using the formerly provided e-mail address and the one-off password sent to the authorisation telephone number.
4. The user may block access to the Archive after login into it with the Block button. Access to the Archive may also be blocked for the same reasons as the Internet Banking System.
5. Instructions on how to unblock the Archive or change the login details for the Archive are only accepted at the bank performing this activity.
